# Design Document - Project2

**Project Description**

CareerPath is a comprehensive task management and community support platform designed for job seekers and career changers. The application offers structured task organization with priority-based categorization and a motivational message board to help users maintain momentum in their career journey. The goal is to provide a centralized platform that combines practical job search management tools with community support features to make the career transition process more organized and encouraging.

**User Personas**

Career Services Professional
- 30-40 years old
- Advising multiple job seekers simultaneously
- Needs tools to track client progress and activities
- Looking for platforms to recommend to job seekers
- Values organized task management and progress tracking

Active Job Seeker
- 25-35 years old
- Recently graduated or seeking career change
- Manages multiple job applications and interviews
- Needs structure in job search process
- Values community support and organization tools

Career Coach
- 35-45 years old
- Supporting multiple clients in career transitions
- Looking for tools to recommend to clients
- Focuses on accountability and progress tracking
- Values structured approach to job search management

**User Stories**

1. Task Management and Organization

As Alex (Recent Graduate), I want to organize my job applications by priority so that I can focus on the most important opportunities first.

2. Progress Tracking

As Sarah (Career Coach), I want to see my client's task completion rates so that I can monitor their job search progress.
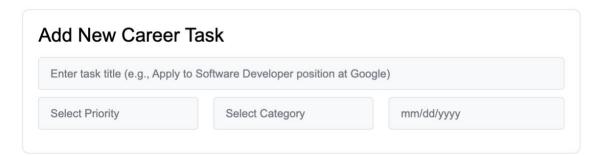

3. Community Support

As David (Recent Graduate), I want to read motivational messages from others so that I can stay encouraged during my job search.

4. System Management

As Maya (Career Coach), I want to easily add new tasks so that I can quickly update my client's action items.

**Mock Up**

## Add New Career Task

Enter task title (e.g., Apply to Software Developer position at Google)

Select Priority     Select Category     mm/dd/yyyy

## My Career Tasks

**All**  Applications  Interviews  Networking
